Introducing a new ZENESIS™ Early Entry blade, ZSRX07UT. It was developed for those contractors who want to perform the early entry operation 1-3 hours after laying the concrete, if conditions warrant.

GENERAL TOOL

GENERAL TOOL ZENESIS™ EARLY ENTRY SERIES

ZSRX07UT

- ZENESIS™ Patterned Technology
- 10mm (.394") segment height
- 7 Bond
- Skid Plate Shield included

Application

- 1-3 Hour Green Concrete

Available Sizes

- 6", 6.5", 8"

ZSRX10UT

- ZENESIS™ Patterned Technology
- 10mm (.394") segment height
- 10 Bond
- Skid Plate Shield included

Application

- Very Hard Aggregate, Flint, Chert

Available Sizes

- 5", 6", 7", 8", 10", 12", 13½", 14"

ZSRX15UT

- ZENESIS™ Patterned Technology
- 10mm (.394") segment height
- 15 Bond
- Skid Plate Shield included

Application

- Medium Hard Aggregate

Available Sizes

- 5", 6", 7", 8", 10", 12", 13½", 14"

ZSRX20UT

- ZENESIS™ Patterned Technology
- 10mm (.394") segment height
- 20 Bond
- Skid Plate Shield included

Application

- Medium Hard Aggregate, Chert, Traprock

Available Sizes

- 5", 6", 7", 8", 10", 12", 13½", 14"

ZSRX30UT

- ZENESIS™ Patterned Technology
- 10mm (.394") segment height
- 30 Bond
- Skid Plate Shield included

Application

- Medium Aggregate, Traprock, Quartz

Available Sizes

- 5", 6", 7", 8", 10", 12", 13½", 14"

ZSRX50UT

- ZENESIS™ Patterned Technology
- 10mm (.394") segment height
- 50 Bond
- Skid Plate Shield included

Application

- Aggregate, Granite, Limestone

Available Sizes

- 5", 6", 7", 8", 10", 12", 13½", 14"
